Numerically, the Indian Military force ranks as the 2nd largest army in the world that remains continually engaged in stressful multi-operational tasks at home and abroad. As a fallout of this phenomenon, cases of military litigants – serving and retired – had been piling up in High Courts while the Civil Judiciary remained largely reluctant to interfere with Military’s internal affairs. The Armed Forces Tribunal (AFT) was thus institutionalised in 2007 as an Appellate authority to hear and dispose of appeals and petitions of the serving and retired military personnel. This concept has proved to be a great boon in the speedy disposal of cases.

‘Across the Bench’ is the first book of its kind that delves into the depths of the Military Judicial System. It is a concise, precise record of landmark judgements and rulings of the Hon’ble Supreme Court and the AFT on a vast array of subjects covering promotions, pensions, court martials, awards, privileges, family discords and a lot more. Diligently authored, this book delves into the whole gamut of problems faced by military personnel, veterans and their families. It is an excellent guide-cum-reference book for all military Headquarters/Establishments, Units, MoD departments/offices/libraries, lawyers and judges, and anyone else concerned with military personnel, veterans and their families/dependents.

It is an incredibly shocking and daring revelation of the ‘nexus’ between a section of India’s polity and Pakistan’s ISI/LeT. The Proxy War is now outsourced to Indian ‘franchisees’! Digging into the socio-political malaise, it pointedly uncovers the politicians’ exploits in **perpetuating Poverty** rather than **eradicating** it. The exciting story tears through Khaps, Gurus, Judges, Netas, doctors and.......
